

Kahoot

Quiz 15 - Geothermal Rig Sizing

Test your knowledge of rig selection, top drives, hook load calculations, rig horsepower, mud pump sizing, and drill string design. From BOP handling to 2-joint rig advantages and failure criteria, th... [Show more](#)

Questions (15)

1 - Quiz

The following are consideration when choosing a Top Drive

- ▲ Surface Drilling Torque ✓
- ◆ Surface Pump Pressure
- Pick Up Speed
- Make Up Torque ✓

2 - True or false

An overhead BOP crane helps to reduce flat time for BOP pressure test

- ◆ True
- ▲ False ✓

3 - Quiz

Which of the following are advantages of a 2-joint rig?

- ▲ Faster tripping time
- ◆ Faster moving time ✓
- More expensive
- Smaller rig footprint ✓

4 - Quiz

There are the factors require to be considered inchoose an onshore rig size selection

- ▲ Fuel consumption ✓
- ◆ Maximum Hookload
- Maximum Hookload ✓
- Number of rig crew ✓

5 - True or false

Rig horsepower is inversely proportional to rig price

- ◆ True
- ▲ False ✓

6 - Quiz

Typical Rig Technical Data Sheet specification....

- ▲ Rated Drilling Depth ✓
- ◆ Top Drive System ✓
- Rig Horse Power ✓
- Mud Pump ✓

7 - True or false

The maximum **PICK UP** load is limited by Drill Pipe Tensile Strength.

◆ True ✓ ▲ False

8 - Quiz

Maximum Hook Load depends on....

▲ Drill Pipe Tensile Strength ✓ ◆ Top Drive System ✓
● Traveling Block ✓ ■ Flex Joint

9 - True or false

Rig Pick Up capability indicates the Rig Rated Drilling Depth

◆ True ✓ ▲ False

10 - Quiz

Determine the Hookload, given: BHA weight in air = 120 Klbs, TDS = 17 Klbs, Traveling Block = 22 Klbs, MW = 10.3 ppg.

$$BF = \frac{65.4 - MW_{ppg}}{65.4}$$

▲ 165 Klbs ◆ 155 Klbs
● 140 Klbs ✓ ■ 150 Klbs

11 - Puzzle

How to determine Max Hook Load?

▲ Gathering Pick Up Load data from different area and plotted ✓
◆ Select the graph that show the biggest Pick Up Load ✓
● Do Extrapolated for the deeper drilling depth ✓

12 - True or false

In Drill String Speed Methodology, downward direction is **NOT** affecting drawwork horse power calculation.

◆ True ✓ ▲ False

13 - Quiz

Common cause of Drill Pipe failure criteria

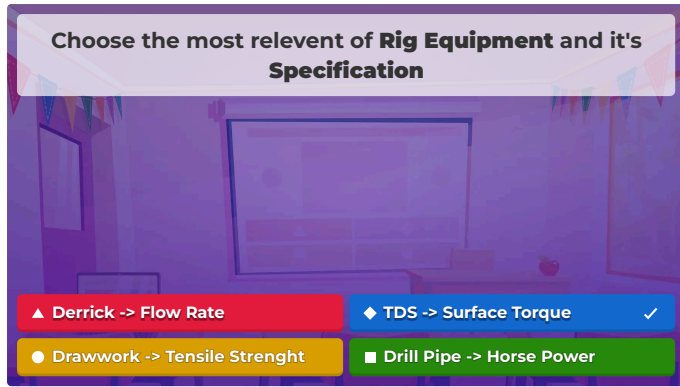

▲ Thread damage ✓ ◆ Exceeding Tensile Strength ✓
● Exceeding Yield Torque ✓ ■ Under Yield Torque

14 - True or false

Rig Mud Pump rate is determined by the biggest hole section to be drilled

◆ True ✓ ▲ False

15 - Quiz
