

Kahoot

Quiz 17 - Wellhead & Xmas Tree

Test your knowledge of wellhead components, casing spools and hangers, hub clamps, and the Christmas tree—its functions, valves, and installation timing in oil and gas operations.

Questions (12)

1 - Quiz

The primary functions of a wellhead in oil and gas operations include the following, except....

Provides a means of attaching a blowout preventer during drilling	Provides a reliable means of well access
Directly increasing oil production rate ✓	Provides a mean of attaching a well pump

2 - Quiz

The component installed on the wellhead for production operations is...

Blowout Preventer	Drill Bit
Christmas Tree ✓	Logging Tool

3 - Quiz

what is the name of the image below?

Tubing Hanger	Casing Head ✓
Tubing Head	Casing Spool

4 - Quiz

Where is the casing spool installed in the wellhead assembly?

Under the casing head	Between the casing head and tubing hanger ✓
Inside the production string	After the last casing string is set

5 - Quiz

Which component on the spool casing is used to hang the next casing?

Counter-bore	Side outlet
Casing hanger ✓	Bottom Bowl

6 - Quiz

What are the main functions of the casing hanger in the wellhead system?

Sealing the underground formation and storing drilling mud	Hanging the casing string load and sealing the annulus pressure ✓
Connecting the rig to the BOP system and directing the production fluid	Controlling the formation pressure and increasing oil production

7 - Quiz

Wellhead and Christmas tree system are governed by

▲ API 6A ✓ ◆ API 5CT

● API 6BX ■ API RP 14

8 - Quiz

What is a Christmas Tree in the context of oil and gas drilling?

▲ A tool for measuring the depth of a well ◆ An assembly of valves, chokes, and fittings used for production ✓

● A tool or pumping oil ■ A tool for permanently shutting in a well

9 - Quiz

When is the Christmas Tree usually installed during the well completion process?

▲ Before the blowout preventer (BOP) ◆ After the casing is installed

● After the tubing is installed ✓ ■ After the drilling bit is used

10 - Quiz

What is the primary function of the "Tee or Cross" component in a Christmas tree?

▲ To direct production to the surface ◆ To provide a connection point for various control valves ✓

● To maintain pressure in the well ■ To pump fluid to the surface

11 - Quiz

What is the purpose of a swab valve in a Christmas tree system?

▲ Control production flow ◆ Shut off flow in an emergency

● Provide vertical access to the wellbore ✓ ■ Deliver gas to the surface

12 - True or false

Product Specification Level (PSL) defines the degree of *design* applied to the wellhead component.

◆ True ▲ False ✓
