

Kahoot

Quiz 20 - Drilling BHA

Test your knowledge on the essential components of drilling operations! This quiz covers everything from the BHA's location and function to specific tools like PDM, RSS, MWD, stabilizers, and jars. Se... [Show more](#)

Questions (20)

1 - Quiz

What does BHA stand for in drilling operations?

☐ Basic Hydraulic Assembly
☒ Bore Hole Assembly
☐ Borehole Hydraulic Apparatus
☐ Bottom Hole Assembly

2 - Quiz

Where is the BHA located in the drill string?

☐ From drill pipe to surface casing
☒ From the bit to the drill pipe
☐ From top drive to standpipe
☐ Between mud pumps and standpipe

3 - Quiz

What is the primary function of a Positive Displacement Motor (PDM)?

☐ Generate electrical power
☒ Open the borehole diameter
☐ Measure azimuth and inclination
☐ Convert hydraulic energy into mechanical energy

4 - True or false

A higher number of motor lobes results in higher torque and lower RPM

☒ True
☐ False

5 - Quiz

The power section of a PDM converts drilling fluid energy into:

☒ Torque and RPM
☐ Heat and pressure
☐ Electrical current
☐ Hydraulic pressure only

6 - Quiz

Increasing the number of lobes in a motor power section generally results in:

☐ Lower RPM and lower torque
☒ Higher RPM and lower torque
☐ No change in performance
☐ Lower RPM and higher torque

7 - Quiz

Which factor directly increases motor RPM?

▲ Increased flow rate ✓	◆ Increased inclination
● Increased stabilizer gauge	■ Increased hole size

8 - Quiz

During back-reaming operations, drilling RPM should be reduced to:

▲ 10–20% of drilling RPM	◆ 25–30% of drilling RPM
● 50–70% of drilling RPM ✓	■ 90–100% of drilling RPM

9 - Quiz

Rotary Steerable Systems (RSS) primarily reduce:

▲ Bit wear only	◆ Static pipe conditions ✓
● Pump pressure	■ Mud density

10 - Quiz

Which of the following is an RSS benefit?

▲ No need for MWD tools	◆ Elimination of directional surveys
● Variable deflection for precise control ✓	■ Lower hole quality

11 - Quiz

MWD stands for:

▲ Measurement While Drilling ✓	◆ Mechanical Well Design
● Motorized Well Deflection	■ Magnetic Well Direction

12 - Quiz

MWD determines inclination primarily using:

▲ Temperature readings	◆ Pressure sensors
● Accelerometers ✓	■ Magnetic field measurements

13 - Quiz

Which sensor measures the Earth's magnetic field?

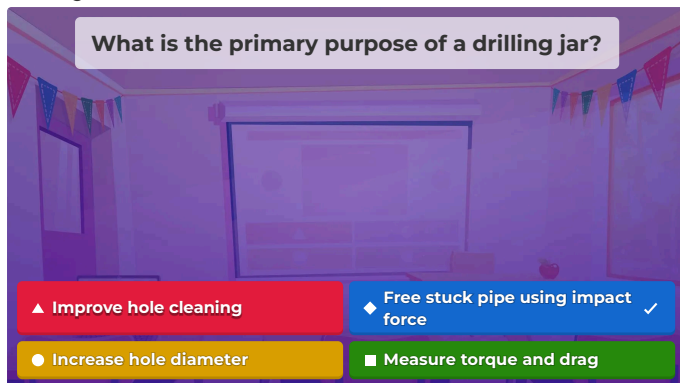

▲ Magnetometer ✓	◆ Strain gauge
● Gyroscope	■ Accelerometer

14 - Quiz

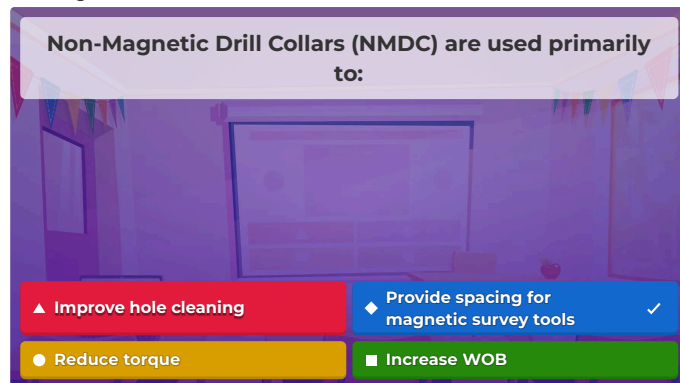

What is the primary function of a stabilizer?

▲ Control the contact point between the hole and BHA ✓	◆ Measure formation pressure
● Increase mud flow rate	■ Generate torque

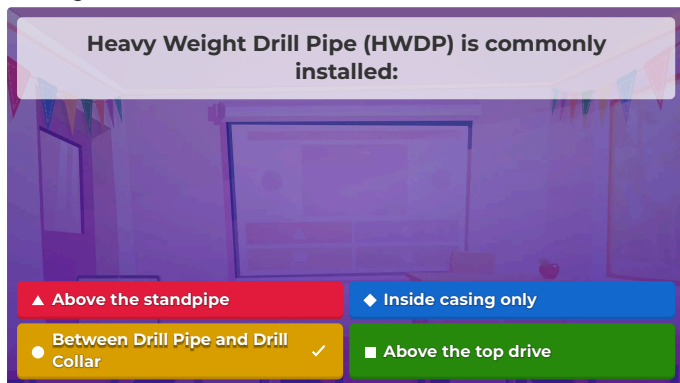

15 - Quiz
