## Quiz 5 - Drilling HSE

Test your knowledge on HIRA/JSA, PTW, LOTO, KPIs, hierarchy of controls, emergency roles, SDS, and common hazard identification in drilling and general operations. Perfect for safety champions and tea... [Show more](#)

### Questions (20)

#### 1 - Quiz

**An example of an "Engineering Control" in drilling operations is ...**

|                              |                                         |
|------------------------------|-----------------------------------------|
| ▲ Safety Helmet              | ◆ Conduct Toolbox Meeting               |
| ● Develop SOP                | ■ Install guard in rotating equipment ✓ |
| ◆ Conducting safety campaign |                                         |

#### 2 - Quiz

**What is the main purpose of conducting HIRA / JSA before starting work?**

|                                                  |                                          |
|--------------------------------------------------|------------------------------------------|
| ▲ Reduce manpower requirements                   | ◆ Ensure production targets are achieved |
| ● Identify hazards and determine risk controls ✓ | ■ Reduce the use of equipment            |
| ◆ Determine employee work schedules              |                                          |

#### 3 - Quiz

**Based on HOC (Hazard Observation Card) material, most workplace accidents are caused by...**

|                           |                     |
|---------------------------|---------------------|
| ▲ Heavy equipment failure | ◆ Unsafe conditions |
| ● Weather conditions      | ■ Unsafe acts ✓     |
| ◆ Environmental factors   |                     |

#### 4 - Quiz

**A worker observes a potential danger during a lifting ops. Based on SWA principles, the most appropriate action is**

|                                                |                                              |
|------------------------------------------------|----------------------------------------------|
| ▲ Wait for the supervisor to arrive            | ◆ Stop the work and communicate the hazard ✓ |
| ● Continue the work to meet targets            | ■ Document it without stopping the work      |
| ◆ Ignore it if it is outside the worker's area |                                              |

#### 5 - Quiz

**The following activities require a Permit to Work (PTW), except...**

|                           |              |
|---------------------------|--------------|
| ▲ Confined Space Entry    | ◆ Heavy Lift |
| ● Electrical Work         | ■ Hot Work   |
| ◆ Routine low-risk work ✓ |              |

#### 6 - Quiz

**What is the main purpose of implementing LOTO (Lock Out Tag Out)?**

|                                                         |                                                                           |
|---------------------------------------------------------|---------------------------------------------------------------------------|
| ▲ Reduce equipment downtime                             | ◆ Identify the equipment operator                                         |
| ● Ensure equipment remains operating during maintenance | ■ Isolate energy sources so equipment cannot operate during maintenance ✓ |
| ◆ Accelerate the commissioning process                  |                                                                           |

## 7 - Quiz

**In Community Safety & Responsibility, which action BEST reflects safe behavior?**

|                                                       |                                                                        |
|-------------------------------------------------------|------------------------------------------------------------------------|
| ▲ Prioritizing speed of material distribution         | ◆ Ignoring community complaints during operations                      |
| ● Reducing communication with surrounding communities | ■ Controlling dust, traffic, and emissions during project activities ✓ |
| ◆ Focusing only on internal company safety            |                                                                        |

## 8 - Quiz

**Which of the KPIs on this list are classified as Lagging indicators?**

|                                    |                                  |
|------------------------------------|----------------------------------|
| ▲ Number of safety meeting         | ◆ Corrective action closure rate |
| ● Total recordable incident rate ✓ | ■ Number of emergency drill      |

## 9 - Quiz

**Which of the KPIs on this list are classified as Leading indicators?**

|         |         |
|---------|---------|
| ▲ LTIFR | ◆ HPIF  |
| ● FAC   | ■ HOC ✓ |

## 10 - Quiz

**Here are the list of common risk analysis method, except...**

|            |         |
|------------|---------|
| ▲ MCU ✓    | ◆ HAZOP |
| ● Bow-Ties | ■ JSA   |

## 11 - Puzzle

**Rank the hierarchy of control below from most effective to least effective**

|                            |
|----------------------------|
| ▲ Elimination ✓            |
| ◆ Substitution ✓           |
| ● Engineering Control ✓    |
| ■ Administrative control ✓ |

## 12 - Quiz

**The following are roles in an emergency, except...**

|               |                    |
|---------------|--------------------|
| ▲ Fire Warden | ◆ Assembly Marshal |
| ● First Aider | ■ Security ✓       |

## 13 - True or false

**Each SDS (Safety data Sheet) is not describes essential appropriate equipment for handling and in emergency**

|        |           |
|--------|-----------|
| ◆ True | ▲ False ✓ |
|--------|-----------|

## 14 - Quiz

**Specify the missing part in the question mark below...**

|                    |                      |
|--------------------|----------------------|
| ▲ Hazard Pictogram | ◆ Signal Word ✓      |
| ● Hazard Statement | ■ Product Identifier |

## 15 - Quiz

Specify the missing part in the question mark below...

▲ Signal Word      ◆ Hazard Statement

● Hazard Pictogram      ■ Product Identifier

## 16 - Quiz

Risk is combination of...

▲ Likelihood x Severity      ✓ ◆ Probability x Likelihood

● Exposure x Severity      ■ Nearmiss x Likelihood

## 17 - Quiz

Below are categorized into physical hazard, except...

▲ Flammable material      ◆ Pressurized gas

● Oxidizing Gas      ■ Asphyxiation gas

## 18 - Quiz

CHSS is stand for?

▲ Contractor, Health, Safety and Security      ◆ Community, Health, Safety and Security ✓

● Community, Health, Social and Security      ■ Community, Health, Safety and Social

## 19 - Quiz

The PTW is required prior to commence the works, except...

▲ Hot Work      ◆ Low-risk routine job ✓

● Explosive handling      ■ Working At Height

## 20 - True or false

HAZARD

◆ True ✓      ▲ False
