

Kahoot

Quiz 9 - Casing Setting Depth and Well Sizing

Questions (10)

1 - Quiz

Which of the following is **not** a **type** of casing?

- ▲ Drill Pipe ✓
- ◆ Conductor
- Intermediate Casing
- Surface Casing

2 - Quiz

Which of the following is **not** a **key parameter** for casing design?

- ▲ Delivery Time ✓
- ◆ Formation Pressure
- Fracture Pressure
- Temperature Profile

3 - Quiz

What are the **two main outputs** of preliminary casing design?

- ▲ Casing Size ✓
- ◆ Rig Horsepower
- Setting Depth ✓
- Bit Type

4 - Quiz

In casing design, what is the **main basis** of the **bottom-up** approach?

- ▲ Bit Selection
- ◆ Kick Tolerance ✓
- Rig Capacity
- Cement Quality

5 - Puzzle

Arrange the **casing strings** from **top** to **bottom**.

- ▲ Conductor ✓
- ◆ Surface Casing ✓
- Intermediate Casing ✓
- Production Casing ✓

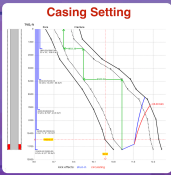

6 - True or false

Casing provides **structural support** to the **wellbore**.

- ◆ True ✓
- ▲ False

7 - Quiz

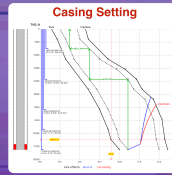

On a **pressure–depth plot**, which **curve** is located on the **right side**?

☐ Pore Pressure
 ☒ Fracture Pressure ✓
 ☐ Mud Weight
 ☐ Kick Curve

8 - Quiz

What happens if **drilling** moves **left** of the **pore curve**?

☐ Formation Breakdown
 ☐ Lost Circulation
 ☒ Kick (Influx) ✓
 ☐ Pipe Failure

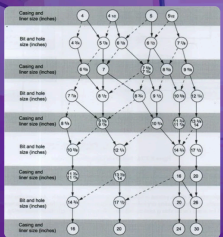

9 - True or false

Bottom-up method starts from shallow sections.

☒ True
 ☐ False ✓

10 - Puzzle

If the final reservoir section requires a **7" liner**, arrange the correct **hole size** and **casing program** (top to bottom).

☒ 12-1/4" Hole ✓
 ☒ 9-5/8" Casing ✓
 ☒ 8-1/2" Hole ✓
 ☒ 7" Liner ✓
